**REGISTRATION GUIDE
2018-2019**

Dear Trojan Students and Parents:

Welcome to Thornton High School! The faculty and staff are committed to providing our students with a rich, challenging, and meaningful educational experience during your time with us. Our academic programs are designed to offer every student the opportunity to excel while at THS and to build a strong foundation for success after high school. We look forward to working in partnership with you throughout your high school career as you make course selections and plan for your future.

As you prepare to select your coursework for next school year and develop your four year graduation plan, it is important that you review the minimum requirements for the Adams 12 diploma. It is equally important that you understand the university entrance requirements established by the Colorado Department of Higher Education (CDHE) and any post-secondary programs or careers that you may be considering.

This registration guide is an essential tool in making the important educational decisions that lie ahead for you. As you look through the guide, you will find information on graduation requirements, college admission standards, academic policies, and course descriptions. In addition, programs that are unique to Thornton High School are explained.

Please give careful consideration to the program and course decisions that you make. These decisions will shape not only your graduation plans, but also your future college and career choices.

THS counselors and faculty are available to answer any questions that you may have about your course selections. I encourage you to seek their advice as you work through the course selection process.

Go Trojans!

Jennifer Skrobela
Principal

Statement of Nondiscrimination

Adams County School District No. 12 does not discriminate on the basis of race, color, national origin, sex, age or handicap in admission or access to, or treatment of employment in its educational programs or activities.

Registration Guidelines

This registration guide will acquaint you with the courses, academic policies, and graduation requirements of Thornton High School.

Thoughtful four year planning and course selection will help ensure an on-time graduation as well as a seamless transition into postsecondary education and careers.

As you select courses, it is important that you consider the following:

- Review your Individual Career and Academic Plan (ICAP) each year.
- Review your progress towards meeting district graduation and post-secondary requirements.
- Read the course descriptions carefully and talk with your parents/guardians, teachers and counselors about your choices.
- Students participating in athletics and/or activities are responsible for knowing and understanding the CHSAA eligibility requirements.
- According to District Policy 6340, all students in grades 9 - 12 must enroll in a minimum of six (6) credits per year. Students in grades 9-11 must be enrolled in one (1) credit each of math, English, science, and social studies. Seniors must take a minimum of three (3) credits in a core area (math, English, science, social studies, world language or career and technical courses).

Schedule Change Requests

Please note that the master schedule is built taking many factors into consideration, including student requests, graduation requirements, class sizes, staffing, and funding. Courses may only be offered if enough students enroll and staffing decisions are made based on what students request.

Therefore, once you have registered for classes, schedule changes may only be requested for the following reasons:

1. Failed a class or have not taken a prerequisite.
2. Physical disability (must have a doctor's excuse).
3. Previously earned credit in the same class.

Students requesting a schedule change must work through their counselor. Requesting a schedule change due to an outside job, athletics, teacher preference, or to have a class during a specific period are not valid reasons for requesting a schedule change.

Important Note: If a schedule change is approved, the choices for replacing the class(es) are limited to courses with seats available.

IB Middle Years Program (IB MYP) and International Baccalaureate Diploma Program (IB DP)

Thornton High School offers the internationally-recognized International Baccalaureate Program in grades 9 through 12. The common philosophy of IB schools is to deliver a rigorous, interdisciplinary course of study that prepares students to participate effectively in the modern world.

The IB MYP and IB DP programs help students to develop a wide range of skills, with a focus on intercultural awareness, holistic learning, and communication. The programs encourage students to be:

Inquirers	Risk-takers
Open-minded	Balanced
Caring	Communicators
Knowledgeable	Principled
Thinkers	Reflective

The IB MYP (9th and 10th grades) and IB DP (11th and 12th grades) courses are open to all THS students, whether or not students choose to pursue an IB diploma. All 9th and 10th graders are enrolled in the IB MYP program, but some students may choose to take more challenging coursework. At the 11th and 12th grades, students may choose to complete the entire IB Diploma Program, while others may choose to take individual IB courses suited to their strengths and interests.

For more information about the MYP and IB programs, please contact your counselor, the IB coordinators, or visit our school website. The IB handbook is available online.

Important Note: Students who enroll in advanced courses at the 9th and/or 10th grade or in IB diploma courses in 11th and 12th grade are expected to complete those courses. All students in IB courses are required to take the IB exams in May. Students who do not take the required IB exams will have their GPAs unweighted for the courses that they failed to test in. Students will not be allowed to drop from the MYP Diploma Pathway or from IB diploma classes without the permission of their counselor, the IB Coordinators, and an administrator.

Higher Education Admission Requirements (HEAR)

The Colorado Department of Higher Education (CDHE) Admissions Standards Policy includes a pre-collegiate curriculum requirement. The admission standards apply to students who seek to qualify for admission to Colorado's four-year public institutions. Community colleges will continue to have open admission which means students enrolling in these institutions are not subject to admissions standards.

CDHE Requirements	Class of 2010+
English	4
Mathematics (Must include Algebra I, Geometry, Algebra II or equivalents)	4
Natural/Physical Science (two units must be lab-based)	3
Social Sciences (at least one unit of U.S. or World History)	3
World Language **	1
Academic Electives*	2
Total	17 credits

*Acceptable Academic Electives include additional courses in English, mathematics, natural/physical sciences and social sciences, world languages, art, music, journalism, drama, computer science, honors, Advanced Placement, International Baccalaureate courses, and appropriate CTE courses.

**Some universities require completion of level 2 or level 3 of a foreign language. Check the criteria of the universities you are considering.

College Entrance Requirements

Some students may consider post-secondary options outside of Colorado. Regardless of where you may be applying, college admission is generally dependent upon the following factors:

- Grade point average and class rank
- Course selection during high school
- College admission tests (SAT and/or ACT)
- Activities/Community Involvement
- Recommendations from teachers and counselors
- Personal essays and/or statements

It is recommended that you work with your counselor to tailor your four year plan to your goals.

Content Standards

Adams 12 Five Star Schools curriculum frameworks are aligned with the Colorado State Standards. These frameworks are the instructional guidelines for each content area.

Graduation Requirements

GRADUATION REQUIREMENTS FOR THE CLASS OF 2021 & BEYOND

The new graduation requirements for the Class of 2021 and beyond will focus on **two** areas: **Credits & Coursework** and **College & Career Readiness Demonstrations**.

CREDITS & COURSEWORK

High school students will complete 23 credits in the following coursework to graduate:

- 4 English
- 3 Mathematics
- 3 Social Studies (1.0 United States History, 0.5 Government)
- 3 Science (2 lab-based credits)
- 1 Physical Education* (0.5 Health) NO Physical Education Waiver available
- 2 Fine & Practical Arts (Music, Art, Theater, Career & Technical Education, World Language)
- 7 Electives*

**New requirement beginning with the Class of 2021*

COLLEGE & CAREER READINESS DEMONSTRATIONS

High school students **must** demonstrate college and career readiness in English and mathematics by achieving a minimum score in **at least ONE** of the following assessment demonstrations*:

- Accuplacer
- ACT
- ACT Work Keys
- Advanced Placement (AP)
- ASVAB
- Concurrent Enrollment
- Collaboratively Developed Assessment
- District Capstone
- Industry Certificate
- International Baccalaureate (IB)
- SAT

**Students are not required to achieve a minimum score for English and mathematics in the same assessment demonstration*

GRADUATION REQUIREMENTS FOR THE CLASS OF 2020 & BEFORE

CREDITS & COURSEWORK

High school students will complete 23 credits in the following coursework to graduate:

- 4 English
- 3 Mathematics
- 3 Social Studies (1.0 United States History, 0.5 Government)
- 3 Science (2 lab-based credits)
- 2 Physical Education (0.5 Health) 1.0 Physical Education Waiver available
- 2 Fine & Practical Arts (Music, Art, Theater, Career & Technical Education, World Language)
- 6 Electives

Details and ongoing updates available at:
www.adams12.org/graduation-requirements

Grade Level Classification

Thornton High School students are expected to make regular progress toward graduation. A student must earn at least sixteen (16.0) credits to be classified as a senior.

Early Graduation

Students can apply to graduate early if they complete their graduation requirements by the end of the first semester. Applications are available in the counseling center and must be approved by the counselor, parent, and school administration. Students who are approved for early graduation will not receive a diploma nor participate in a graduation ceremony until the commencement ceremony in May.

Participation in the Graduation Ceremony

In order to participate in the graduation ceremony, students must successfully complete all academic requirements and be in good standing. See student handbook for details.

Determination of Valedictorian and Salutatorian

For the classes of 2018 and 2019, there will be a valedictorian and salutatorian named for the IB Diploma Program, a valedictorian and salutatorian for the standard/AP/honors curriculum, and an overall valedictorian and salutatorian.

For the class of 2020, there will only be one valedictorian and salutatorian. They will be determined using weighted GPAs at the end of the student's high school careers.

Please refer to the THS Student Handbook for additional information about the determination of valedictorians and salutatorians.

Class Rank

Class rank is determined based on the weighted cumulative GPA and includes all graded courses on the transcript.

Grade Point Average (GPA)

The student's grade point average (GPA) is an average of all grades attained in relation to the credit value of each course and the number of courses attempted. All graded courses (courses assigning a grade of A, B, C, D or F) are figured into the GPA at semester. Courses graded Pass or Fail instead of a letter grade are not counted in the GPA.

Weighted Grades

Weighted grades will be assigned to courses with the International Baccalaureate (IB) or Advanced Placement (AP) designation, or those that are otherwise approved by the district to be weighted. Students transferring credit into Thornton High School may have credit weighted if it is an IB or AP

course. Weighted credit must be requested upon transferring the grades and approved by an administrator.

Pre-IB/MYP classes are weighted ½ point.

IB and AP classes are weighted 1 point.

Students taking AP or IB classes are required to take the AP and IB exams in May. If a student fails to take the required exam for a class, then the class will be unweighted.

Grade Replacement/ Repeating a Course

Students who fail or receive a low grade in a class may retake the class (on a space available basis). The student will be awarded the higher grade and the GPA will be recalculated. Upon verification of successful completion, the prior course grade will be replaced with “NG” and the new course grade and credit will be listed on the transcript.

Please note that grade replacement is not an option for maintaining valedictorian or salutatorian status.

Physical Education Waiver

High school juniors and seniors are eligible to request .5 to 1.0 waiver of credit for the physical education (P.E.) graduation requirement. Students who qualify for a waiver are still required to complete the total number of credits necessary to fulfill graduation requirements. Students who participate and successfully compete in and for a Colorado High School Activities Association (CHSAA) sponsored sport, spirit squad or marching band are eligible to request a P.E. waiver. One successful season of a sport, spirit squads and/or marching band is equivalent to a .5 waiver of credit. A student wishing to request a PE Waiver must meet with their counselor to review the ICAP plan. An application for a waiver must be submitted after successful completion of the activity and during a student’s junior or senior year. The waiver will be allowed or denied within thirty school days. **Please note that a Physical Education Waiver cannot be used in determining early completion in grade 12.**

Full IB Diploma candidates (Grades 11, 12) are already receiving a 1.0 District P.E. waiver and are not eligible for an additional P.E. waiver.

****No PE waiver is available starting with the Class of 2021.****

Fees

Some courses have required fees or materials. These fees and material requirements are listed in the course description. Fees can be paid to the bookkeeper. *Fees are subject to change.*

Post-Secondary Options/Outside Credit

Students in their junior or senior year of high school may be eligible to enroll in coursework at a college or university, with costs reimbursed by the District, provided specific eligibility and academic criteria are satisfied. Parents and students interested in more information about post-secondary enrollment

options are encouraged to review the participation guidelines as described in District Policy 6285 or to request information from their student's counselor. In all cases where outside credit is applied toward high school graduation, the student must seek prior approval through their counselor.

Bollman Technical Education Center (BTEC)

The Bollman Technical Education Center offers programs for students who are seeking technical expertise combined with employability skills and/or certifications. These may be applied while attending a community college, career and technical school, four-year college or university, entering the military, or for entry-level positions beyond high school. Please talk with your counselor if you are interested in any of BTEC's programs.

Advanced Placement

Some THS students may enroll in Advanced Placement (AP) courses at THS or BTEC. AP offers students the opportunity to take college-level courses while still in high school and to potentially receive college credit for successful performance on the AP exams in May. For more information about AP, please visit their website at <https://apstudent.collegeboard.org/home>. Students who enroll in AP courses are required to take the AP exams in May. Students who fail to take the exam will have the class unweighted on their transcript.

High School Credit for State-Mandated Assessments (2017-18 and Beyond)

PSAT 9/PSAT 10/SAT/CMAS: Credit is awarded, if at the date of the test administration, the student was an Adams 12 student.

PSAT 9: Ninth grade students may earn up to a maximum of .5 credits (.25 Eng/Lang Arts and/or .25 Math).

1. Students will receive the .25 credit of **English/Language Arts** if their PSAT 9 assessment score reflects the following:
 - a) Evidence-Based Reading and Writing (EBRW) score is 410 or higher or
 - b) EBRW student growth percentile of 66 or higher.
2. Students will receive a .25 credit of **Math** if their PSAT 9 Math assessment score reflects the following:
 - a) Mathematics score is 450 or higher or
 - b) Mathematics student growth percentile of 66 or higher

PSAT 10: Tenth grade students may earn up to a maximum of .5 credits (.25 Eng/Lang Arts and/or .25 Math)

1. Students will receive the .25 credit of **English/Language Arts** if their PSAT 10 assessment score reflects the following:
 - a) EBRW score is 430 or higher or
 - b) EBRW student growth percentile of 66 or higher.

2. Students will receive a .25 credit of **Math** if their PSAT 10 Math assessment score reflects the following:
 - a) Mathematics score is 480 or higher or
 - b) Mathematics student growth percentile of 66 or higher

SAT and CMAS: Eleventh grade students may earn up to a maximum of .75 credits (.25 Eng/Lang Arts, .25 Math, and/or .25 Science)

1. Students will receive the .25 credit of **English/Language Arts** if their SAT assessment score reflects the following:
 - c) EBRW score is 480 or higher or
 - d) EBRW student growth percentile of 66 or higher.
2. Students will receive a .25 credit of **Math** if their SAT Math assessment score reflects the following:
 - a. Mathematics score is 530 or higher or
 - b. Mathematics student growth percentile of 66 or higher
3. Students will receive the .25 credit of **Science** if their CMAS Science score reflects Met or Exceeded Expectations.

Thornton High School Athletic Programs

The athletic programs at Thornton High School are an integral part of your high school experience. The year-to-year characteristics of our programs are:

- Academics before athletics. You are a STUDENT-athlete.
- Multi-sport athletes - playing more than one sport a year.
- Sportsmanship
- Competing at your highest level.

Students who participate in athletics, activities, and/or clubs must remember that they are students first and athletes second. All students are actively encouraged to participate in more than one sport. Please see previous pages for extracurricular offerings at THS.

There are on average three levels for all athletics offered at Thornton High School; C-Level, Junior Varsity, and Varsity. The majority of our sports participate in the 5A East Metro Athletic Conference. Those schools include:

Adams City High School	Aurora Central High School
Brighton High School	Gateway High School
Northglenn High School	Prairie View High School
Rangeview High School	Thornton High School
Vista Peak Prep High School	Westminster High School

***Trojan Football plays in different 4A leagues because of the “waterfall” seating. Girls’ gymnastics also participates in the Front Range League.

In order to participate in activities sponsored by CHSAA or Thornton High School, students must be enrolled in a minimum of five classes EACH semester. Thornton High School follows the following policies for eligibility:

**Incoming Freshman are exempt from eligibility rules from middle school. They start on a clean slate until the first eligibility report is pulled in each season.

If a student has more than one F in the previous semester, they are required to sit for the first quarter of the fall semester. If a student has more than one F in the previous semester and does not play a fall sport, they can regain eligibility with their quarter 1 grades. Students who have more than one F at the end of fall semester, lose their eligibility until the fourth quarter. We continually encourage all our athletes to take responsibility in the classroom to be sure they are eligible to participate.

Are you ready to become a Trojan?

Use this checklist for all athletic/activities at THS. This is the best place for you to start your journey as a Trojan!

- Must be in 9th - 12th grade at Thornton High School
- Must be enrolled in and attending classes that offer a total of 2.5 units of credit during the semester of participation and the previous semester. If an athlete drops his/her course load to less than the equivalent of five classes, he/she becomes immediately ineligible.
- Must not be failing at the time of participation more than the equivalent of .50 unit of credit. A student who receives more than .5 credit of "F" at the end of the week will be ineligible the following week. (Some coaches have stricter guidelines for their specific sport).
- Summer school or its equivalent may be used to regain eligibility. The classes taken in summer school must be in the same curricular area as classes previously failed. Students must verify with the Athletic Director that the course enrolled in will be accepted.
- Must have had a physical examination within the calendar year.
- Must have signed the Thornton High School Authorization for Athletic Participation form and the Adams Twelve High School Athletic Code of Conduct.
- Must have a form signed by his/her parents or legal guardian indicating that he/she is covered by an insurance plan.
- Must not have turned 19 before August 1st.
- Must not have dropped out of school.
- Must not play more than four seasons in any sport during high school.
- Must not practice with a non-school team in his/her sport while he/she is a member of a Thornton High School team (unless he/she has received prior written consent from the Thornton High School principal).

***Students participating in Spirit Squad (Cheerleading), Poms, FOCUS, Band, Music, and Speech competitions must meet the credit requirements and eligibility policies listed above.*

	<p><u>National Collegiate Athletic Association (NCAA) Eligibility:</u></p> <p>If you are planning to enroll in college as a freshman and you wish to participate in Division I or II athletics, you must be certified by the NCAA Initial-Eligibility Center. This process should be started by the end of the junior year or the beginning of the senior year. For the latest eligibility requirements, please visit:</p> <p>www.ncaa.org/student-athletes/future/eligibility-center</p>
---	---

COURSE OFFERINGS

ART

All art classes can count towards elective or fine art/practical art credit.

FOUNDATION OF ART - 6500

Grades: 9, 10, 11, 12 Credit: .50

Creative Art—Comprehensive courses provide students with the knowledge and opportunity to explore an art form and to create individual works of art. These courses may also provide a discussion and exploration of career opportunities in the art world. Initial courses cover the language, materials, and processes of a particular art form and the design elements and principles supporting a work of art. As students advance and become more adept, the instruction regarding the creative process becomes more refined, and students are encouraged to develop their own artistic styles. Although Creative Art courses focus on creation, they may also include the study of major artists, art movements, and styles.

JEWELRY I / II— 6590, 6591

Grades: 9, 10, 11, 12 Credit: .50

Jewelry courses apply art and design principles to the creation of jewelry. Typically, students explore using various media, such as ceramic, papier-mache, glass, plastic, copper-enameled, brass, and silver. Course topics include exposure to jewelry of diverse world cultures and the history of jewelry design. Some Jewelry courses may concentrate on metalwork processes such as brazing, soldering, casting, welding, riveting, and finishing as they relate to the creation of jewelry.

Counseling Notes:

- **Class fee** of \$25.00.
- Must successfully complete Jewelry I to take Jewelry II.

DRAWING/PAINTING I/II – 6514, 6515

Grades: 9, 10, 11, 12 Credit: .50

Drawing/Painting courses cover the same topics as Creative Art—Comprehensive courses, but focus on drawing and painting. In keeping with this attention on two-dimensional work, students typically work with several media (such as pen-and-ink, pencil, chalk, watercolor, tempera, oils, acrylics, and so on), but some courses may focus on only one medium.

Counseling Notes:

- Must successfully complete Drawing/Painting I to take Drawing/Painting II.

PHOTOGRAPHY I/II (DIGITAL) – 6570, 6575

Grades: 9, 10, 11, 12 Credit: .50

Photography courses expose students to the materials, processes, and artistic techniques of taking artistic photographs. Students learn about the operation of a camera, composition, lighting techniques, depth of field, filters, camera angles, and film development. The course may cover black-and-white photography, color

photography, or both. As students advance, the instruction regarding the creative process becomes more refined, and students are encouraged to develop their own artistic style. These courses may also cover major photographers, art movements, and styles.

Counseling Notes:

- **Class fee** of \$30.00.
- Must successfully complete Photography I to take Photography II.

CERAMICS I/II – 6566, 6567

Grades: 9, 10, 11, 12 Credit: .50

Ceramics/Pottery courses cover the same topics as Creative Art—Comprehensive courses, but focus on creating three-dimensional works out of clay and ceramic material. Particular attention is paid to the characteristics of the raw materials, their transformation under heat, and the various methods used to create and finish objects.

Counseling Notes:

- **Class fee** of \$25.00.
- Must successfully complete Ceramics I to take Ceramics II.

PRINTMAKING – 6597

Grades: 9, 10, 11, 12 Credit: .50

Printmaking courses introduce students to a variety of printmaking techniques using processes such as relief printing (monoprint, collagraph block); intaglio (etching and engraving); and perigraphy (silkscreen films, stencils, block-out). These courses emphasize design elements and principles and introduce art criticism as applied to fine art prints. Lessons may also include the historical development of printmaking in Western and non-Western cultures.

Counseling Notes:

- **Class fee** of \$30.00.

SCULPTURE I – 6560

Grades: 9, 10, 11, 12 Credit: .50

Sculpture courses cover the same topics as Creative Art—Comprehensive courses, but focus on creating three-dimensional works. Students typically work with several media (such as clay, ceramics, wood, metals, textiles, and so on), but some courses may focus on only one medium.

Counseling Notes:

- **Class fee** of \$25.00.

IB ART - PAINTING 2D - 6490

Grades: 11, 12 Credit: 1

IB Art/Design courses prepare students to take the International Baccalaureate Art/Design exams at either the Standard or Higher level. IB Art/Design courses help develop students' aesthetic and creative faculties, offer training in awareness and criticism of art, and enable students to create quality works of art of their own. Students

perform both studio and research work; the research component is designed to investigate particular topics or concepts of interest in further detail.

Counseling Notes:

- **Class fee** of \$30.00.
- Juniors and Senior may test IB SL
- This class may be repeated a second year in order to meet the HL testing criteria, upon permission from the teacher and IB coordinator.

IB ART - CERAMICS 3D - 6497

Grades: 11, 12 Credit: 1

IB Art/Design courses prepare students to take the International Baccalaureate Art/Design exams at either the Standard or Higher level. IB Art/Design courses help develop students' aesthetic and creative faculties, offer training in awareness and criticism of art, and enable students to create quality works of art of their own. Students perform both studio and research work; the research component is designed to investigate particular topics or concepts of interest in further detail.

Counseling Notes:

- **Class fee** of \$30.00.
- Juniors and Senior may test IB SL
- This class may be repeated a second year in order to meet the HL testing criteria, upon permission from the teacher and IB coordinator.

BUSINESS, MARKETING, AND TECHNOLOGY

All business classes can count towards elective or fine art/practical art credit.

FOOD/BEVERAGE MANAGEMENT - 7200

Grades: 10, 11, 12 Credit: .50

This semester course provides students with "real world" marketing experience. Students will be responsible for selecting products, placing products within the store, pricing products, and promoting products. In addition, students will develop and refine customer service skills. Students must take Food/Beverage Management with Marketing.

Counseling Notes:

- Interview and instructor's permission is required.
- Students will be held responsible for merchandising and/or money.

MARKETING - 7210

Grades: 10, 11, 12 Credit: 2 (1 for class, 1 for on-the-job training)

Marketing—Comprehensive courses focus on the wide range of factors that influence the flow of goods and services from the producer to the consumer. Topics may include (but are not limited to) market research, the purchasing process, distribution systems, warehouse and inventory control, salesmanship, sales promotions, shoplifting and theft control, business management, and entrepreneurship. Human relations, computers, and economics are often covered as well. Principles of Marketing courses offer students insight into the processes

affecting the flow of goods and services from the producer to the consumer. Course content ranges considerably as general marketing principles such as purchasing, distribution, and sales are covered; however, a major emphasis is often placed on kinds of markets; market identification; product planning, packaging, and pricing; and business management.

Counseling Notes:

- **Class fee** for annual membership dues to affiliate state and national DECA organizations
- Business attire will be required for all competitions and functions and will be included in the student's grade.
- The student will be required to work in the Café or Royal Gorge.
- **HIRE Education** credit available. See description at the end of this section.

IB BUSINESS AND MANAGEMENT STANDARD LEVEL - 7246

Grades: 11, 12 Credit: 1

IB Business and Management courses prepare students to take the International Baccalaureate Business and Management exam at either the Standard or Higher Level. In keeping with Individual and Society courses, IB Business and Management promotes problem-solving by identifying the problem, selecting and interpreting data, applying appropriate analytical tools, and recommending solutions by evaluating their quantitative and qualitative implications. These courses also equip students with knowledge and understanding of business terminology, concepts and principles.

Counseling Notes:

- **Class fee** for annual membership dues to affiliate state and national DECA organizations
- Business-like attire will be required for all competitions and functions.
- Students will be evaluated using CTE workplace standards (participation and attendance).
- May test in IB SL after successful completion.
- NCAA approved core course
- **HIRE Education** credit available. See description at the end of this section.

IB BUSINESS AND MANAGEMENT HIGHER LEVEL- 7247

Grades: 12 Credit: 1

IB Business and Management courses prepare students to take the International Baccalaureate Business and Management exam at either the Standard or Higher Level. In keeping with Individual and Society courses, IB Business and Management promotes problem-solving by identifying the problem, selecting and interpreting data, applying appropriate analytical tools, and recommending solutions by evaluating their quantitative and qualitative implications. These courses also equip students with knowledge and understanding of business terminology, concepts and principles.

Counseling Notes:

- **Class fee** for annual membership dues to affiliate state and national DECA organizations
- Business-like attire will be required for all competitions and functions.
- Students will be evaluated using CTE workplace standards (participation and attendance).
- May test in IB SL after successful completion.
- NCAA approved core course.
- **HIRE Education** credit available. See description at the end of this section.

BUSINESS MANAGEMENT/ENTREPRENEURSHIP - 7265

Grades: 10, 11, 12 Credit: 1

Business Principles and Management courses are designed to provide students with an understanding of the American business system, its organizations, and its management. These courses examine the various leadership and management styles of a variety of successful business organizations, large or small. Entrepreneurship courses acquaint students with the knowledge and skills necessary to own and operate their own businesses. Topics from several fields typically form the course content: economics, marketing principles, human relations and psychology, business and labor law, legal rights and responsibilities of ownership, business and financial planning, finance and accounting, and communication. Several topics surveyed in Business Management courses may also be included.

BUSINESS LAW - 7300

Grades: 10, 11, 12 Credit: .50

Business Law courses emphasize legal concepts that are relevant to business and business organizations. Topics examined in these courses typically include contracts, buying/renting property, installment buying, insurance, buyer/seller relationships, negotiable instruments, employment, taxes, insurance, commercial papers, legal organizational structures, and consumer liabilities.

INTRODUCTION TO BUSINESS - 7330

Grades: 9, 10 Credit: .50

Introductory Business courses survey an array of topics and concepts related to the field of business. These courses introduce business concepts such as banking and finance, the role of government in business, consumerism, credit, investment, and management. They usually provide a brief overview of the American economic system and corporate organization. Introductory Business courses may also expose students to the varied opportunities in secretarial, accounting, management, and related fields.

ACCOUNTING I - 7340

Grades: 10, 11, 12 Credit: 1

Accounting courses introduce and expand upon the fundamental accounting principles and procedures used in businesses. Course content typically includes the full accounting cycle, payroll, taxes, debts, depreciation, ledger and journal techniques, and periodic adjustments. Students may learn how to apply standard auditing principles and to prepare budgets and final reports. Calculators, electronic spreadsheets, or other automated tools are usually used. Advanced topics may include elementary principles of partnership and corporate accounting and the managerial uses of control systems and the accounting process.

Counseling Notes:

- This course is strongly recommended for a business major in college, as it is a core requirement for a business degree.
- **Class fee** for FBLA dues.

ADVANCED ACCOUNTING - 7345

Grades: 11, 12 Credit: 1

Accounting courses introduce and expand upon the fundamental accounting principles and procedures used in businesses. Course content typically includes the full accounting cycle, payroll, taxes, debts, depreciation, ledger

and journal techniques, and periodic adjustments. Students may learn how to apply standard auditing principles and to prepare budgets and final reports. Calculators, electronic spreadsheets, or other automated tools are usually used. Advanced topics may include elementary principles of partnership and corporate accounting and the managerial uses of control systems and the accounting process.

Counseling Notes:

- Prerequisite: Successful completion of Accounting I
- **Class fee** for FBLA dues.

AP COMPUTER SCIENCE PRINCIPLES – 7357

Grades: 9, 10, 11, 12 Credit: 1

Following the College Board’s suggested curriculum designed to mirror college-level computer science courses, AP Computer Science A courses provide students with the logical, mathematical, and problem-solving skills needed to design structured, well-documented computer programs that provide solutions to real-world problems. These courses cover such topics as programming methodology, features, and procedures; algorithms; data structures; computer systems; and programmer responsibilities.

Counseling Notes:

- Successful completion of CMIC I or concurrent enrollment in Pre-IB/MYP Mathematics I is recommended

WEB DESIGN - 7375

Grades: 9, 10, 11, 12 Credit: .50

Students will learn to create, design and publish information on the World Wide Web. Students will become proficient in Web page design using hand coding, and then learn on a web-authoring software. Using HTML, students will transform ideas into publications read for launching on the Web. Students will design detailed and in-depth, interactive websites using cutting edge technology and learn the dynamic possibilities of industry standard web-authoring tools.

Counseling Notes:

- **Class fee** for FBLA dues.

ADVANCED WEB DESIGN - 7376

Grades: 10, 11, 12 Credit: .50

This course continues the skills development from the Web Design course. Students will learn the skills to create interactive websites, and to utilize state of the art tools to create graphics, animations, and sound. Students will expand their knowledge in creation of graphics and movies for the web using Flash technology.

Counseling Notes:

- Class fee of \$15.00 for FBLA dues.
- **HIRE Education** credit available. See description at the end of this section.

BUSINESS TECHNOLOGY – 7410

Grades: 10, 11, 12 Credit: 2 (1 for class, 1 for on-the-job training)

In Business Computer Applications courses, students acquire knowledge of and experience in the proper and efficient use of previously written software packages, particularly those used in the business world. Generally, these courses explore a wide range of applications, including (but not limited to) word-processing, spreadsheet, graphics, and database programs, and they may also cover topics such as electronic mail, desktop publishing, and telecommunications.

COMPUTER APPLICATIONS - 7420

Grades: 9, 10, 11, 12 Credit: .50

In Computer Applications courses, students acquire knowledge of and experience in the proper and efficient use of previously written software packages. These courses explore a wide range of applications, including (but not limited to) word-processing, spreadsheet, graphics, and database programs, and they may also cover the use of electronic mail and desktop publishing.

HIRE EDUCATION (On-the-job-training)

Potential Credit Earned: .5 - 1.0 credit per year, up to 2.0 credits total toward graduation

Interested students who are enrolled in a pre-approved Career and Technical Education course (CTE) or who have completed the pre-approved CTE pathway, may choose to participate in HIRE Education (on-the-job-training). In Hire Ed, students will have the opportunity to apply their classroom knowledge to their job. Students will work with the Hire Ed coordinator throughout the semester. Students should not enroll in HIRE Education as a separate class on the course registration selection form. The HIRE Education Coordinator will sign students up after courses have begun each semester.

- Students must work a minimum of 125 documented hours to earn .5 credits. Students may ONLY earn .5 credit per semester.
- Students must work a minimum of 250 documented hours to earn 1.0 credit for the entire school year.
- Students cannot earn more than 1.0 credit per school year and may ONLY earn a maximum of .5 credit per semester.
- Students may not be enrolled in and/or receive credit for more than one HIRE course at a time.
- Students may not count more than 2.0 HIRE Ed credits towards graduation requirements.
 - HIRE Ed credit may not be included in nor does it count toward the 6.0 credit total required yearly for each student.
 - Students must complete a HIRE Ed. Agreement to enroll.
 - A student must pass the CTE course he/she is enrolled in in order to earn HIRE Ed. credit that semester.

ENGLISH LANGUAGE DEVELOPMENT

BEGINNING ENGLISH I- 0905

Grades: 9, 10, 11, 12 Credit: 2

At the end of beginning level, an ESL student will be able to clearly communicate in speaking and writing basic needs and wants using phrases and simple sentences in both social and academic contexts. Students will be able to write short narratives and a variety of responses relating to familiar and concrete topics. They will recognize, decode, and pronounce high frequency vocabulary words specific to units and lessons. They will be able to demonstrate understanding of simple short stories, information, and academic content. They will use context clues and visual support to make meaning of text. They will be able to follow one-step oral commands, instructions, and

conversations, both one-on-one and in small groups. They will be able to listen to a speaker to identify objects, people, and places with respect to familiar and concrete topics.

Counseling Notes:

- Students are placed in this course based upon ELD placement criteria.

INTERMEDIATE ENGLISH I - 0930

Grades: 9, 10, 11, 12 Credit: 1

At the end of intermediate level, an ESL student will be able to clearly communicate in speaking and writing needs, wants, opinions, and ideas using complete thoughts in social and academic contexts. They will be able to contribute to content area discussions by summarizing, defining, and explaining using simple and some complex sentences. Students will be able to write well-constructed academic responses using vocabulary relevant to social and academic registers on familiar and concrete topics. They will recognize, decode, and pronounce most high frequency, and contextualized vocabulary, as well as explicitly taught sounds and symbols in English. Students will use a variety of reading strategies including recognizing main idea, supporting details, and inferences to make meaning of various text types. They will be able to follow multi-step oral commands, instructions, and conversations, both one-on-one and in small groups. They will be able to listen to a speaker to identify main ideas and facts regarding familiar and concrete topics.

Counseling Notes:

- Students are placed in this course based upon ELD placement criteria.

ADVANCED ENGLISH I - 0940

Grades: 9, 10, 11, 12 Credit: 1

At the end of advanced level, an ESL student will be able to clearly communicate in speaking and writing needs, wants, opinions, and complex ideas with confidence and native-like fluency. They will be able to write in a variety of formats to effectively communicate using compound and complex sentences with vocabulary specific to content, with increasing independence, sophistication, and confidence. They will be able to follow and contribute to academic discussions and interact with English speaking peers in social and academic contexts. They will be able to independently use multiple reading comprehension strategies to make meaning from near or on grade level text. In order to comprehend meaning, students will be able to listen to a speaker to infer intended message, to evaluate arguments, and to summarize content.

Counseling Notes:

- Students are placed in this course based upon ELD placement criteria.

TRANSITION ENGLISH I - 0945

Grades: 9, 10, 11, 12 Credit: 1

At the end of transitional level, an ESL student will be able to clearly communicate in speaking and writing observations, information, opinions, and complex ideas with confidence and fluency similar to a native English speaker. They are able to independently write well-organized essays and narratives appropriate for grade level. They are able to convey abstract ideas in speech and in writing. They are able to defend a point of view, clarify, and support an opinion in classroom discussions with supports common to language arts classrooms. They are able to use, analyze, and synthesize academic vocabulary in speaking, reading, and writing in order to broaden understanding of the topic. They are able to respond and contribute in speech and writing using language

subtleties and complex figurative language. While reading they use a variety of comprehension strategies to interact with complex texts. In order to comprehend and extend meaning, students will be able to listen to a speaker to infer intended message, to evaluate arguments, to formulate opinions, and to synthesize content.

Counseling Notes:

- Students are placed in this course based upon ELD placement criteria.

FAMILY AND CONSUMER SCIENCES

All FCS classes can count towards elective or fine art/practical art credit.

CULINARY NUTRITION - 7608

Grades: 9, 10, 11, 12 Credit: .50

The purpose of this foods lab based course is to develop healthy individuals with an understanding of healthy and nutritious preparation techniques utilizing various resources and skills.

Emphasis is placed on:

- Preparing nutrient-dense foods
- Implementing healthy nutritional choices
- Sports nutrition
- Exploring careers related to culinary nutrition
- Practicing wise consumer decisions

Counseling Notes:

- **Class fee** of \$20.00.
- CDHE academic elective

CATERING - 7610

Grades: 10, 11, 12 Credit: 1

These courses examine specific topics related to Restaurant, Food, and Beverage Services, such as catering, rather than provide a general study of the industry or of specific topics already described.

Prerequisite: Successful completion of Food Skills or teacher approval.

Counseling Notes:

- **Class fee** of \$20.00.
- Students choosing to join FCCLA will need to pay state and national dues.
- CDHE academic elective

CHILD & ADOLESCENT DEVELOPMENT - 7640

Grades: 9, 10, 11, 12 Credit: .50

Child & Adolescent Development students will gain a practical understanding of the young child. This course is a study of the whole child including the role of the parent. Students will study the development of the child from conception, birth and beyond

- Examine the decision making process in becoming a parent.
- Classify theories of child development.

- Compare and contrast the stages of physical, social, emotional and intellectual development of children.
- Examine physical, health and motor development of children.
- Compare how children learn differently between ages 2-12.
- Connect intellectual and social/emotional development to age and abilities of children.

Counseling Notes:

- CDHE academic elective

RELATIONSHIPS - 7655

Grades: 10, 11, 12 Credit: .50

Relationships is a course in communications, relationships, life crisis, and preparation for various stages of life. Areas of study will include:

- Apply adult communication skills.
- Evaluate the impact of life crisis on individuals and the family.
- Explain the stages and transitions between life cycles. (Single life, dating, marriage, parenting, death and dying.)

Counseling Notes:

- CDHE academic elective

INDEPENDENT LIVING - 7665

Grades: 11, 12 Credit: .50

Do you plan to live on your own? Will you be able to make responsible decisions about everyday life situations? Independent Living is a course that is designed to help students make the transition from high school to adulthood.

Areas of study include:

- Explore college/career planning.
- Managing credit and finances.
- Connect problem solving and decision making skills.
- Develop and practice good consumer skills.

Counseling Notes:

- CDHE academic elective

ENGLISH LANGUAGE ARTS

MYP 9th GRADE LANGUAGE A – 1134

Grades: 9 Credit: 1

Exploration and Identity: In this course, students will explore their own cultural identities as well as the cultural identities of people from around the world through the study of literature both within and outside the United States. They will also understand how experiences and cultural expectations shape attitudes. Students will solve problems, analyze language, and provide supporting evidence in order to communicate clearly in both writing and speaking.

International Baccalaureate (IB) Language A, Middle Years Program courses include instruction in the instrumental function of a language, emphasizing skills in listening, viewing, speaking, reading, and writing, as well as literature encompassing a variety of periods and genres.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course

PRE IB/MYP 9th GRADE LANGUAGE A – 1136

Literature and Composition—Exploration of Identity

Grades: 9 Credit: 1

Exploration and Identity: In this course, students will explore their own cultural identities as well as the cultural identities of people from around the world through the study of literature both within and outside the United States. They will also understand how experiences and cultural expectations shape attitudes. Students will solve problems, analyze language, and provide supporting evidence in order to communicate clearly in both writing and speaking.

International Baccalaureate (IB) Language A, Middle Years Program courses include instruction in the instrumental function of a language, emphasizing skills in listening, viewing, speaking, reading, and writing, as well as literature encompassing a variety of periods and genres.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course

MYP 10th GRADE LANGUAGE A – 1141

Grades: 10 Credit: 1

Big Ideas Reflected in Literature: This course will focus on a literary exploration of human thought and the great ideas that humanity has expressed through literature. The “Big Ideas” are as follows: The individual within or versus society, the creation/organization of society/government, social justice, ethics, and innovation/exploration. Students will participate in a variety of inquiry based learning activities and discussions. They will write narrative, informative, analytical, and persuasive pieces, and read to explore the relationship between a work’s historical or cultural context and the impact of the work itself on humanity. Readings will include a range of literature from the United States and around the world.

International Baccalaureate (IB) Language A Middle Years Program courses include instruction in the instrumental function of a language, emphasizing skills in listening, viewing, speaking, reading, and writing, as well as literature encompassing a variety of periods and genres.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course.

PRE IB/MYP 10TH GRADE LANGUAGE A – 1143

Literature and Composition—Exploration of Identity

Grades: 10 Credit: 1

Big Ideas Reflected in Literature: This course will focus on a literary exploration of human thought and the great ideas that humanity has expressed through literature. The “Big Ideas” are as follows: The individual within or versus society, the creation/organization of society/government, social justice, ethics, and innovation/exploration. Students will participate in a variety of inquiry based learning activities and discussions. They will write narrative, informative, analytical, and persuasive pieces, and read to explore the relationship between a work’s historical or cultural context and the impact of the work itself on humanity. Readings will include a range of literature from the United States and around the world.

International Baccalaureate (IB) Language A Middle Years Program courses include instruction in the instrumental function of a language, emphasizing skills in listening, viewing, speaking, reading, and writing, as well as literature encompassing a variety of periods and genres.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course

IB LANGUAGE A STANDARD LEVEL I- 1191

Grades: 11 Credit: 1

English/Language Arts (11th grade) courses continue to develop students’ writing skills, emphasizing clear, logical writing patterns, word choice, and usage, as students write essays and begin to learn the techniques of writing research papers. Students continue to read works of literature, which often form the backbone of the writing assignments. Literary conventions and stylistic devices may receive greater emphasis than in previous courses.

IB Language A (English) courses prepare students to take the International Baccalaureate Language A exams at either the Standard or Higher level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors and written analyses of this literature in addition to other oral and written assignments. All course content is designed to improve students’ accuracy and fluency in the English language.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course

IB LANGUAGE A STANDARD LEVEL II- 1192

Grades: 12 Credit: 1

English/Language Arts (12th grade) courses blend composition and literature into a cohesive whole as students write critical and comparative analyses of selected literature, continuing to develop their language arts skills. Typically, students primarily write multi-paragraph essays, but they may also write one or more major research papers.

IB Language A (English) courses prepare students to take the International Baccalaureate Language A exams at either the Standard or Higher level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors and written analyses of this literature in addition to other oral and written assignments. All course content is designed to improve students’ accuracy and fluency in the English language.

Counseling Notes:

- NCAA approved core course

- CDHE approved core course

IB WORLD LITERATURE I HIGHER LEVEL- 1145

Grades: 11 Credit: 1

IB Language A (English) courses prepare students to take the International Baccalaureate Language A exams at either the Standard or Higher level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors and written analyses of this literature in addition to other oral and written assignments. All course content is designed to improve students' accuracy and fluency in the English language.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course

IB WORLD LITERATURE II HIGHER LEVEL- 1147

Grades: 12 Credit: 1

IB Language A (English) courses prepare students to take the International Baccalaureate Language A exams at either the Standard or Higher level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors and written analyses of this literature in addition to other oral and written assignments. All course content is designed to improve students' accuracy and fluency in the English language.

Counseling Notes:

- **Prerequisite** – World Literature I Higher Level
- NCAA approved core course
- CDHE approved core course

MATHEMATICS

CONTEMPORARY MATHEMATICS I – 2250

Grades: 9 Credit: 1

CMIC 1 begins the integrated development of high school mathematics. Students will develop the ability to recognize and describe important patterns that relate quantitative variables, visual relationships and statistical relationships; to use data tables, graphs, words and symbols to represent these relationships; and to use reasoning and calculating tools to answer questions and solve problems. Focused units of study include: variables and functions, algebraic expressions and recurrence relations; coordinate graphing, data tables and spreadsheets; equations and inequalities. Other topics include distributions of data, dot plots, histograms, and box plots; measures of center and their properties and measures of variability. Linear functions, slope of line, rate of change, data patterns, solving linear equations and inequalities, and equivalent linear expressions are included. The concepts of exponential growth and decay functions, data modeling, growth and decay rates, half-life and doubling time, compound interest, and properties of exponents will be developed. In the math standard of Shape and Geometric Relationships students will cover triangle inequality, congruence conditions, special quadrilaterals, Pythagorean Theorem, properties of polygons, and properties of polyhedral and Platonic solids. The math standard of Patterns, Functions, and Algebraic Relationships continues with quadratic functions and their graphs, applications to projectile motion and economic problems, expanding and factoring quadratic expressions, and solving quadratic equations. The math standard of Statistics and Probability is explored including sample spaces,

equally-likely outcomes, probability distributions, mutually exclusive events, Addition Rule, simulation, random digits, discrete and continuous random variable, Law of Large Numbers, and geometric probability

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP MATHEMATICS I - 2180

Grades: 9 Credit: 1

International Baccalaureate (IB) Mathematics, Middle Years Program courses are built on a framework of five branches of mathematics: number, algebra, geometry and trigonometry, statistics and probability, and discrete mathematics. The program encourages students to develop an understanding of mathematical reasoning and processes, the ability to apply mathematics and evaluate the significance of results, the ability to develop strategies for problems in which solutions are not obvious, and the acquisition of mathematical intuition.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course

CONTEMPORARY MATHEMATICS II – 2255

Grades: 9, 10, 11 Credit: 1

CMIC 2 continues by reviewing and extending students' abilities to recognize, describe, and use functional relationships among quantitative variables, with an emphasis on relationships that involve two or more independent variables. Students will also work on strengthening their understanding of coordinate methods for representing and analyzing properties of geometric shapes and describing geometric change. In the unit of regression and correlation students will work on understanding the characteristics and interpretation of the least square regression equations and the use of correlation to measure the strength of linear association between two variables. Within the standard of Patterns, Functions, and Algebraic Methods students will be introduced to function notation, constructing and reasoning with functions that model parabolic shapes and other quadratic relationships with more emphasis on symbolic reasoning methods and introducing common logarithms and algebraic methods for solving exponential equations. Trigonometric methods will develop student understanding of trigonometric functions and the ability to use trigonometric methods to solve triangulation and indirect measurement problems. Final units in Course 2 will increase students' abilities to understand and visualize situations involving chance by using simulation and mathematical analysis to construct probability distributions.

Counseling Notes:

- Successful completion of Contemporary Mathematics I recommended
- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP MATHEMATICS II - 2185

Grades: 9, 10 Credit: 1

International Baccalaureate (IB) Mathematics, Middle Years Program courses are built on a framework of five branches of mathematics: number, algebra, geometry and trigonometry, statistics and probability, and discrete mathematics. The program encourages students to develop an understanding of mathematical reasoning and processes, the ability to apply mathematics and evaluate the significance of results, the ability to develop strategies for problems in which solutions are not obvious, and the acquisition of mathematical intuition.

Counseling Notes:

- Successful completion of Pre-IB/MYP Mathematics I recommended
- NCAA approved core course
- CDHE approved core course

CONTEMPORARY MATHEMATICS III - 2260

Grades: 9, 10, 11, 12 Credit: 1

CMIC 3 continues the integrated development of high school mathematics along the interwoven strands of algebra, functions, geometry, trigonometry, statistics and probability. Focused units of study connect these strands through an emphasis on reasoning and proof in geometric, algebraic, and statistical contexts and of basic principles that underlie those reasoning strategies. Inequalities and linear programming will extend students' ability to reason both algebraically and graphically with topics that include inequalities in one and two variables including absolute value and quadratic inequalities. Students will extend their understanding to similarity and congruence and use those relations to solve problems and to prove geometric assertions with and without the use of coordinates. Students will work on developing an understanding of the measurement of variability including normal distribution, standardized scores and binomial distributions. Polynomial and rational functions will extend students' abilities to represent and draw inferences using symbolic expressions and manipulations. The last units of study for this course will focus upon circles and circular functions, recursion and iteration, and finally inverse functions with a focus on logarithmic functions and their use in modeling and analyzing problem situations and data patterns.

Integrated Math courses emphasize the teaching of mathematics as problem solving, communication, and reasoning, and emphasize the connections among mathematical topics and between mathematics and other disciplines. The multi-period sequence of Integrated Math replaces the traditional Algebra I, Geometry, Algebra II sequence of courses, and usually covers the following topics during a three- or four-year sequence: algebra, functions, geometry from both a synthetic and an algebraic perspective, trigonometry, statistics and probability, discrete mathematics, the conceptual underpinnings of calculus, and mathematical structure.

Counseling Notes:

- Successful completion of Contemporary Math II is recommended.
- NCAA approved core course.
- CDHE approved core course.

CP CONTEMPORARY MATH III - 2265

CP CMIC 3 continues the integrated development of high school mathematics along the interwoven strands of algebra, functions, geometry, trigonometry, statistics and probability. Focused units of study connect these strands through an emphasis on reasoning and proof in geometric, algebraic, and statistical contexts and of basic principles that underlie those reasoning strategies. Inequalities and linear programming will extend students' ability to reason both algebraically and graphically with topics that include inequalities in one and two variables including absolute value and quadratic inequalities. Students will extend their understanding to similarity and congruence and use those relations to solve problems and to prove geometric assertions with and without the use of coordinates. Students will work on developing an understanding of the measurement of variability including normal distribution, standardized scores and binomial distributions. Polynomial and rational functions will extend students' abilities to represent and draw inferences using symbolic expressions and manipulations. The last units of study for this course will focus upon circles and circular functions, recursion and iteration, and finally inverse functions with a focus on logarithmic functions and their use in modeling and analyzing problem situations and

data patterns. In this course there will be ongoing use of extension problems as components for acceleration of Contemporary Math 3.

Counseling Notes:

- Completion of Contemporary Math II with a C or better is recommended.

MATH ANALYSIS - 2125

Grades: 11, 12 Credit: 1

Math Analysis courses include the study of polynomial, logarithmic, exponential, and rational functions and their graphs; vectors; set theory; Boolean algebra and symbolic logic; mathematical induction; matrix algebra; sequences and series; and limits and continuity. They may also include some study of trigonometry and/or pre-calculus topics. Elementary Functions courses, while preparing students for eventual work in calculus, include the study of relations and functions, including polynomial, logarithmic, exponential, rational, right trigonometric, and circular functions, and their inverses, graphs, and applications.

Counseling Notes:

- Successful completion of Contemporary Math III is recommended.
- NCAA approved core course.
- CDHE approved core course.

IB MATHEMATICS METHODS I - 2190

Grades: 10, 11, 12 Credit: 1

IB Mathematics courses prepare students to take the International Baccalaureate Mathematics exams at the Standard or Higher level. Topics include operations and properties of number sets; trigonometric functions, equations, and graphs; algebra and coordinate geometry; simultaneous linear equations; polynomial and quadratic functions and equations; calculus, including bilinear, exponential and logarithmic functions; two dimensional vectors and matrices; and probability.

Counseling Notes:

- Must successfully complete Mathematics Methods I and II to test IB SL.
- NCAA approved core course
- CDHE approved core course.

IB MATHEMATICS METHODS II - 2210

Grades: 11, 12 Credit: 1

IB Mathematics courses prepare students to take the International Baccalaureate Mathematics exams at the Standard or Higher level. Topics include operations and properties of number sets; trigonometric functions, equations, and graphs; algebra and coordinate geometry; simultaneous linear equations; polynomial and quadratic functions and equations; calculus, including bilinear, exponential and logarithmic functions; two dimensional vectors and matrices; and probability.

Counseling Notes:

- Must successfully complete Mathematics Methods I and II to test IB SL
- NCAA approved core course
- CDHE approved core course.

IB MATHEMATICS STUDIES I - 2195

Grades: 11, 12 Credit: 1

IB Mathematical Studies courses prepare students to take the International Baccalaureate Mathematical Studies exam at the Standard or Higher level. Intended to provide students with the skills to cope with the mathematical demands of a technological society, course topics include linear, quadratic, and exponential functions, solutions, and graphs; skills in computation, estimation, and development of algorithms; data analysis, including collection, calculation, and presentation of statistics; set operations and logic; business techniques, including progressions and linear programming; and geometry and trigonometry.

Counseling Notes:

- Must successfully complete Mathematics Studies I and II to test IB SL.
- NCAA approved core course.
- CDHE approved core course

IB MATHEMATICS STUDIES II - 2220

Grades: 12 Credit: 1

IB Mathematical Studies courses prepare students to take the International Baccalaureate Mathematical Studies exam at the Standard or Higher level. Intended to provide students with the skills to cope with the mathematical demands of a technological society, course topics include linear, quadratic, and exponential functions, solutions, and graphs; skills in computation, estimation, and development of algorithms; data analysis, including collection, calculation, and presentation of statistics; set operations and logic; business techniques, including progressions and linear programming; and geometry and trigonometry.

Counseling Notes:

- Must successfully complete Mathematics Studies I and II to test IB SL
- NCAA approved core course
- CDHE approved core course.

DISCRETE MATH - 2903

Grades: 11, 12 Credit: 1

Discrete Mathematics courses include the study of topics such as number theory, discrete probability, set theory, symbolic logic, Boolean algebra, combinatorics, recursion, basic algebraic structures and graph theory.

Counseling Notes:

- Successful completion of Contemporary Math III is recommended.
- NCAA approved core course.
- CDHE approved core course.
- This class is specifically designed for college bound students whose career goals are non-technical in nature and do not require a strong math/science background.

ADVANCED PLACEMENT CALCULUS B/C - 2005

Grades: 12 Credit: 1

Following the College Board's suggested curriculum designed to parallel college-level calculus courses, AP Calculus BC courses provide students with an intuitive understanding of the concepts of calculus and experience with its

methods and applications, and also require additional knowledge of the theoretical tools of calculus. These courses assume a thorough knowledge of elementary functions, and cover all of the calculus topics in AP Calculus AB as well as the following topics: vector functions, parametric equations, and polar coordinates; rigorous definitions of finite and nonexistent limits; derivatives of vector functions and parametrically defined functions; advanced techniques of integration and advanced applications of the definite integral; and sequences and series.

Counseling Notes:

- Earning an A or B in each semester of IB Mathematics Methods I or completion of IB Mathematics II is recommended.
- Students in this class are required to take the AP exam. If a student fails to take the AP exam, the grade for this class will be unweighted on the student's transcript.
- Students must provide their own graphing calculator (approved for the AP examination) and graph paper. Please contact your counselor if you cannot afford one.
- NCAA approved core course.
- CDHE approved core course.

MUSIC

All music classes can count towards elective or fine art/practical art credit.

BEGINNING CHOIR - 6265

Grades: 9, 10, 11, 12 Credit: 1

Chorus courses provide the opportunity to sing a variety of choral literature styles for men's and/or women's voices and are designed to develop vocal techniques and the ability to sing parts.

Counseling Notes:

- Entry level course - no singing experience required
- **Class fee** of \$15.00.
- Course may be repeated for elective credit.
- CDHE approved academic elective.

WOMEN'S CHOIR - 6000

Grades: 9, 10, 11, 12 Credit: 1

Chorus courses provide the opportunity to sing a variety of choral literature styles for men's and/or women's voices and are designed to develop vocal techniques and the ability to sing parts.

Counseling Notes:

- Intermediate level course - some singing experience required
- **Class fee** of \$15.00.
- Course may be repeated for elective credit.
- CDHE approved academic elective.

MEN'S CHOIR - 6005

Grades: 9, 10, 11, 12 Credit: 1

Chorus courses provide the opportunity to sing a variety of choral literature styles for men's and/or women's voices and are designed to develop vocal techniques and the ability to sing parts.

Counseling Notes:

- Intermediate level course - some singing experience required
- **Class fee** of \$15.00.
- Course may be repeated for elective credit.
- CDHE approved academic elective.

CHORALE CHOIR I & II - 6025/6026

Grades: 10, 11, 12 Credit: 1

Vocal Ensemble courses are intended to develop vocal techniques and the ability to sing parts in small ensemble or madrigal groups. Course goals may include the development of solo singing ability and may emphasize one or several ensemble literature styles.

Counseling Notes:

- Advanced level course - Audition required; prior choir experience recommended
- **Class fee** of \$15.00.
- Course may be repeated for elective credit.
- CDHE approved academic elective
- Placement is not guaranteed and is dependent upon student's graduation plan and academic schedule

INTRO TO INSTRUMENTAL MUSIC - 6121

Grades: 9, 10, 11, 12 Credit: .50

Instrumental ensemble courses are intended to develop students' technique for playing brass, woodwind, percussion, and/or string instruments.

Counseling Notes:

- This is a beginning level class. No prior experience required.

SYMPHONIC BAND - 6140

Grades: 9, 10, 11, 12 Credit: .50

Courses in Concert Band are designed to promote students' technique for playing brass, woodwind, and percussion instruments and cover a variety of band literature styles, primarily for concert performances.

Prerequisites: Prior playing experience. Audition for placement in Wind Ensemble/Symphonic Band will occur following Marching Band.

Counseling Notes:

- **Class fee** of \$35.00.
- Students must provide their own instruments. A limited number of school instruments are available for a fee.
- Time outside of class is required.
- Course may be repeated for elective credit.

- CDHE approved academic elective.
- Placement is not guaranteed and is dependent upon student's graduation plan and academic schedule

SYMPHONIC ORCHESTRA - 6190

Grades: 9, 10, 11, 12 Credit: 1

Orchestra courses are designed to develop students' abilities to play brass, woodwind, percussion, and string instruments, covering a variety of string and orchestral literature styles.

Counseling Notes:

- Prerequisites: Previous playing experience and audition with the instructor.
- **Class fee** of \$15.00.
- Time outside class is required.
- Students must provide their own instruments. A limited number of school instruments are available for a fee.
- Course may be repeated for credit.
- CDHE approved academic elective.
- Placement is not guaranteed and is dependent upon student's graduation plan and academic schedule

CONCERT ORCHESTRA - 6240

Grades: 9, 10, 11, 12 Credit: 1

Orchestra courses are designed to develop students' abilities to play brass, woodwind, percussion, and string instruments, covering a variety of string and orchestral literature styles.

Counseling Notes:

- Prerequisite: Previous playing skills.
- **Class fee** of \$15.00.
- Time outside class is required.
- Students must provide their own instruments. A limited number of school instruments are available for a fee.
- Course may be repeated for credit.
- CDHE approved academic elective.
- Placement is not guaranteed and is dependent upon student's graduation plan and academic schedule

WIND ENSEMBLE - 6152

Grades: 9, 10, 11, 12 Credit: 1

Courses in Concert Band are designed to promote students' technique for playing brass, woodwind, and/or percussion instruments and cover a variety of band literature styles, primarily for concert performances.

Counseling Notes:

- Prerequisite: Audition with the instructor
- **Class fee** of \$35.00
- Students must provide their own instruments. A limited number of school instruments are available for a fee.
- Time outside of class is required.
- Course may be repeated for credit.

- CDHE approved academic elective.
- Placement is not guaranteed and is dependent upon student's graduation plan and academic schedule

PHYSICAL EDUCATION

All PE classes can count towards PE or elective credit.

ATHLETIC TRAINING - 4335

Grades: 11, 12 Credit: .50

This course will examine human anatomy and physiology as they pertain to human movement and physical performance in sports activities. These courses may also emphasize the prevention and treatment of athletic injuries. The class will incorporate labs, small group activities, and practical application, in addition to traditional forms of learning. The following criteria must be met prior to credit being awarded: First Aid and CPR certification (\$35 fee), some after school observation hours in the training room may be required.

Counseling Notes:

- Completion of 2 PE courses with a B or better (weight training recommended)
- Completion of Anatomy and Physiology recommended
- Does **NOT** meet CDHE academic elective requirement
-

HEALTHY CHOICES - 4110

Grades: 9, 10 Credit: .50

Topics covered within Health Education courses may vary widely, but typically include personal health (nutrition, mental health and stress management, drug/alcohol abuse prevention, disease prevention, and first aid) and consumer health issues. The courses may also include brief studies of environmental health, personal development, and/or community resources. This is a required class for all students in either 9th or 10th grade.

POSITIVE P.E. – 4010

Grades: 10, 11,12 Credit: 1

These courses provide physical education activities (sports, fitness, and conditioning) adapted for students with special needs.

POSITIVE P.E. AIDE – 4030

Grades: 10, 11, 12 Credit: 1

Physical, Health, and Safety Education—Aide courses offer students the opportunity to assist instructors in preparing, organizing, or delivering course curricula. Students may provide tutorial or instructional assistance to other students.

Counseling Notes:

- Students will be working one on one with a special needs student.
- This course can be repeated for Physical Education credit.
- **Class fee** of \$16.00 for required PE uniform.

TEAM SPORTS I/II – 4150/4151

Grades: 9, 10, 11, 12 Credit: .50

Team Sports courses provide students with knowledge, experience, and an opportunity to develop skills in more than one team sport (such as volleyball, basketball, soccer, and so on).

Counseling Note:

- **Class fee** of \$16.00 for required PE uniform.

INTRODUCTION TO FITNESS – 4190

Grades: 9, 10, 11,12 Credit: .50

Fitness/Conditioning Activities courses emphasize conditioning activities that help develop muscular strength, flexibility, and cardiovascular fitness.

Health and Fitness courses combine the topics of Health Education courses (nutrition, stress management, substance abuse prevention, disease prevention, first aid, and so on) with an active fitness component (typically including aerobic activity and fitness circuits) with the intention of conveying the importance of lifelong wellness habits.

Counseling Note:

- **Class fee** of \$16.00 for required PE uniform.

RECREATIONAL SPORTS - 4210

Grades: 9, 10, 11, 12 Credit: .50

Recreation Sports courses provide students with knowledge, experience, and an opportunity to develop skills in more than one recreational sport or outdoor pursuit (such as adventure activities, croquet, Frisbee, wall climbing, bocce ball, fishing, hiking, cycling, and so on).

Counseling Notes:

- **Class fee** of \$25.00 plus \$16.00 for required PE uniform. .

WEIGHT TRAINING I/II – 4290/4295

Grades: 9, 10, 11, 12 Credit: .50

Weight Training courses help students develop knowledge and skills with free weights and universal stations while emphasizing safety and proper body positioning; they may include other components such as anatomy and conditioning.

Counseling Notes:

- Weight Training I and Weight Training II may not be taken in the same semester.
- Class may be repeated for elective credit
- **Class fee** of \$16.00 for required PE uniform.

WOMEN'S FITNESS - 4331

Grades: 9, 10, 11, 12 Credit: .50

Fitness/Conditioning Activities courses emphasize conditioning activities that help develop muscular strength, flexibility, and cardiovascular fitness.

Health and Fitness courses combine the topics of Health Education courses (nutrition, stress management, substance abuse prevention, disease prevention, first aid, and so on) with an active fitness component (typically including aerobic activity and fitness circuits) with the intention of conveying the importance of lifelong wellness habits.

Counseling Note:

- **Class fee** of \$16.00 for required PE uniform.

SCIENCE

BIOLOGY - 5020

Grades: 9

Credit: 1

Biology courses are designed to provide information regarding the fundamental concepts of life and life processes. These courses include (but are not restricted to) such topics as cell structure and function, general plant and animal physiology, genetics, and taxonomy.

International Baccalaureate (IB) Sciences, Middle Years Program courses provide to students a body of knowledge and an understanding of the scientific approach to problem solving. It may be organized as biology, chemistry, and physics, or as an integrated sciences course. The course requires students to formulate hypotheses, design and carry out experiments to test them, and evaluate results.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP INTEGRATED SCIENCE - 5050

Grades: 9

Credit: 1

International Baccalaureate (IB) Sciences, Middle Years Program courses provide to students a body of knowledge and an understanding of the scientific approach to problem solving. It may be organized as biology, chemistry, and physics, or as an integrated sciences course. The course requires students to formulate hypotheses, design and carry out experiments to test them, and evaluate results.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

CHEMISTRY - 5070

Grades: 10, 11, 12

Credit: 1

Chemistry courses involve studying the composition, properties, and reactions of substances. These courses typically explore such concepts as the behaviors of solids, liquids, and gases; acid/base and oxidation/reduction reactions; and atomic structure. Chemical formulas and equations and nuclear reactions are also studied.

International Baccalaureate (IB) Sciences, Middle Years Program courses provide to students a body of knowledge and an understanding of the scientific approach to problem solving. It may be organized as biology, chemistry, and physics, or as an integrated sciences course. The course requires students to formulate hypotheses, design and carry out experiments to test them, and evaluate results.

Counseling Notes:

- **Class fee** of \$10.00.
- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP CHEMISTRY/BIOLOGY - 5055

Grades: 10 Credit: 1

International Baccalaureate (IB) Sciences, Middle Years Program courses provide to students a body of knowledge and an understanding of the scientific approach to problem solving. It may be organized as biology, chemistry, and physics, or as an integrated sciences course. The course requires students to formulate hypotheses, design and carry out experiments to test them, and evaluate results.

Counseling Notes:

- **Class fee** of \$10.00.
- NCAA approved core course.
- CDHE approved core course

C.P. ANATOMY & PHYSIOLOGY – 5035

Grades: 11, 12 Credit: 1

Usually taken after a comprehensive initial study of biology, Anatomy and Physiology courses present the human body and biological systems in more detail. In order to understand the structure of the human body and its functions, students learn anatomical terminology, study cells and tissues, explore functional systems (skeletal, muscular, circulatory, respiratory, digestive, reproductive, nervous, and so on), and may dissect mammals.

Counseling Notes:

- Prerequisites: C or better in Biology or Physics and C or better in CMIC I. Must have 2 credits out of the following: Freshmen Biology, Sophomore Chemistry, Environmental Science or Physics.
- **Class fee** of \$10.00.
- NCAA approved core course.
- CDHE approved core course.

IB ENVIRONMENTAL SYSTEMS IN SOCIETY - 5054

Grades: 11, 12 Credit: 1

IB Environmental Systems courses prepare students to take the International Baccalaureate Environmental Systems exam at the Standard level by providing them with the knowledge, methods, and techniques to understand the nature and functioning of natural systems, the relationships that affect environmental equilibrium, and human impact on the biosphere. Topics also include ecosystem integrity and sustainability, students' own relationships to the environment, and the nature of internationalism in resolving major environmental issues

Counseling Note:

- May test IB SL after successful completion.
- NCAA approved core course.
- CDHE approved core course

IB BIOLOGY I - 5057

Grades: 11

Credit: 1

IB Biology courses prepare students to take the International Baccalaureate Biology exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Biology promotes understanding of the facts, principles, and concepts underlying the biological field; critical analysis, evaluation, and generation of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of biology and scientific advances in biology upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes study of living organisms from the cellular level through functioning entities within the biosphere. Laboratory experimentation is an essential component of these courses.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course

IB BIOLOGY II - 5060

Grades: 12

Credit: 1

IB Biology courses prepare students to take the International Baccalaureate Biology exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Biology promotes understanding of the facts, principles, and concepts underlying the biological field; critical analysis, evaluation, and generation of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of biology and scientific advances in biology upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes study of living organisms from the cellular level through functioning entities within the biosphere. Laboratory experimentation is an essential component of these courses.

Counseling Notes:

- Prerequisite - Successful completion of IB Biology I.
- May test SL or HL after successful completion.
- NCAA approved core course.
- CDHE approved core course

IB CHEMISTRY I - 5085

Grades: 11

Credit: 1

IB Chemistry courses prepare students to take the International Baccalaureate Chemistry exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Chemistry promotes understanding of the facts, patterns, and principles underlying the field of chemistry; critical analysis, evaluation, prediction, and generation of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of chemistry and scientific advances in chemistry upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes the study

of the materials of the environment, their properties, and their interaction. Laboratory experimentation is an essential part of these courses.

Counseling Notes:

- Course fee of \$10.00
- NCAA approved core course.
- CDHE approved core course

IB CHEMISTRY II - 5090

Grades: 12 Credit: 1

IB Chemistry courses prepare students to take the International Baccalaureate Chemistry exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Chemistry promotes understanding of the facts, patterns, and principles underlying the field of chemistry; critical analysis, evaluation, prediction, and generation of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of chemistry and scientific advances in chemistry upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes the study of the materials of the environment, their properties, and their interaction. Laboratory experimentation is an essential part of these courses.

Counseling Notes:

- Prerequisite - Successful completion of IB Chemistry I.
- Course fee of \$10.00
- May test SL or HL after successful completion.
- Non-IB Diploma students may take this class for elective or science credit.
- NCAA approved core course
- CDHE approved core course.

PHYSICS – 5100

Grades: 11, 12 Credit: 1

Physics courses involve the study of the forces and laws of nature affecting matter, such as equilibrium, motion, momentum, and the relationships between matter and energy. The study of physics includes examination of sound, light, and magnetic and electric phenomena.

Counseling Note:

- NCAA approved core course.
- CDHE approved core course.
- Option for students who were unable to successfully complete 1 or 2 semesters of 9th grade Biology or 10th grade Chemistry.

C.P. PHYSICS - 5105

Grades: 11, 12 Credit: 1

Usually taken after a comprehensive initial study of physics, Physics—Advanced Studies courses provide instruction in laws of conservation, thermodynamics, and kinetics; wave and particle phenomena; electromagnetic fields; and fluid dynamics.

Counseling Notes:

- Prerequisite: C or better in or concurrent enrollment in CMIC III.
Must have 2 credits out of the following: Freshmen Biology, Sophomore Chemistry, Environmental Science or Physics.
- The course is recommended for students pursuing careers in science or science-related field.
- NCAA approved core course.
- CDHE approved core course.

IB PHYSICS I - 5108

Grades: 11, 12 Credit: 1

IB Physics courses prepare students to take the International Baccalaureate Physics exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Physics promotes understanding of the facts, patterns, and principles underlying the field of physics; critical analysis, prediction, and application of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of scientific advances in physics upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes the study of the fundamental laws of nature and the interaction between concepts of matter, fields, waves, and energy. Laboratory experimentation is essential; calculus may be used in some courses.

Counseling Note:

- Prerequisite - Students must have received a B or better in Contemporary Math III, Algebra II or Alg./Geo III, and be concurrently enrolled in Contemporary Math III, IB Math Studies, or IB Math Methods.
- NCAA approved core course
- CDHE approved core course.

IB PHYSICS II- 5109

Grades: 12 Credit: 1

IB Physics courses prepare students to take the International Baccalaureate Physics exams at either the Standard or Higher level. In keeping with the general aim of IB Experimental Sciences courses, IB Physics promotes understanding of the facts, patterns, and principles underlying the field of physics; critical analysis, prediction, and application of scientific information and hypotheses; improved ability to communicate scientific ideas; and an awareness of the impact of scientific advances in physics upon both society and issues of ethical, philosophical, and political importance. Course content varies, but includes the study of the fundamental laws of nature and the interaction between concepts of matter, fields, waves, and energy. Laboratory experimentation is essential; calculus may be used in some courses.

Counseling Notes:

- Prerequisite - Successful completion of IB Physics I.
- Class fee of \$10.00
- May test SL or HL after successful completion.
- Non- IB Diploma students may take this class for elective credit or Science.
- NCAA approved core course
- CDHE approved core course.

ENVIRONMENTAL SCIENCE I & II – 5201 & 5202

Grades: 11, 12 Credit: .50

Environmental Science courses examine the mutual relationships between organisms and their environment. In studying the interrelationships among plants, animals, and humans, these courses usually cover the following subjects: photosynthesis, recycling and regeneration, ecosystems, population and growth studies, pollution, and conservation of natural resources.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course
- Option for students' who were unable to successfully complete 1 or 2 semesters of 9th grade Biology or 10th grade Chemistry.

FORENSIC SCIENCE - 5220

Grades: 11, 12 Credit: 1.0

Have you ever wondered how blood type is determined and matched to a suspect in a criminal case? Are you interested in DNA fingerprinting, crime scene investigation, blood spatter or collecting trace evidence? These topics and many more will be a part of this course. This class will consist of an in-depth exploration of the science, skills and criminalistics of the field of forensic science. Forensic investigation, collection, analysis and law will all be covered in this laboratory-based class. Forensic science will explore concepts in ballistics, death investigation, handwriting analysis, toxicology and many others. This course integrates concepts of biology, chemistry, physics, geology, anthropology, psychology and law.

Counseling Notes:

- May enroll in the course at semester.
- Completion of two years of high school science recommended.

SOCIAL STUDIES

MYP U.S. GOVERNMENT/ECONOMICS— 3901

Grades: 9 Credit: 1

U.S. Government—Comprehensive courses provide an overview of the structure and functions of the U.S. government and political institutions and examine constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process. These courses may examine the structure and function of state and local governments and may cover certain economic and legal topics. Economics courses provide students with an overview of economics with primary emphasis on the principles of microeconomics and the U.S. economic system. These courses may also cover topics such as principles of macroeconomics, international economics, and comparative economics. Economic principles may be presented in formal theoretical contexts, applied contexts, or both.

International Baccalaureate (IB) Humanities, Middle Years Program courses aim to develop the understanding and application of concepts (time, place and space, change, systems and global awareness) and skills (technical, analytical, problem solving, and investigative). Content may include topics such as geography, history, economics, politics, civics, sociology, anthropology, and psychology.

Counseling Notes:

- NCAA approved core course.

- CDHE approved core course.

PRE-IB/MYP ECONOMICS AND GOVERNMENT - 3250

Grades: 9

Credit: 1

U.S. Government—Comprehensive courses provide an overview of the structure and functions of the U.S. government and political institutions and examine constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process. These courses may examine the structure and function of state and local governments and may cover certain economic and legal topics.

International Baccalaureate (IB) Humanities, Middle Years Program courses aim to develop the understanding and application of concepts (time, place and space, change, systems and global awareness) and skills (technical, analytical, problem solving and investigative). Counseling Notes:

- NCAA approved core course.
- CDHE approved core course

MYP WORLD HISTORY AND GEOGRAPHY - 3190

Grades: 10

Credit: 1

World History/World Geography is a year-long course in which students will gain an understanding of different aspects of geographical perspectives, an awareness of the interdependence of world regions and resources and how places are connected through the lens of history and geography. This course concentrates on humanity's more significant political, economic, cultural, and intellectual achievements. Content includes but is not limited to the ancient Near East, India, China, the Middle Ages, and the modern world. The students will gain the ability to read varied sources and develop the skills to analyze, interpret and communicate. Themes which will guide instruction and student learning will be: Cause and Effect, Continuity and Change, Global Awareness, Unity and Diversity, and Human and Environmental Interaction.

International Baccalaureate (IB) Humanities, Middle Years Program courses aim to develop the understanding and application of concepts (time, place and space, change, systems and global awareness) and skills (technical, analytical, problem solving, and investigative). Content may include topics such as geography, history, economics, politics, civics, sociology, anthropology, and psychology.

Counseling Notes: .

- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP WORLD HISTORY AND GEOGRAPHY - 3255

Grades: 10

Credit: 1

World History/World Geography is a year-long course in which students will gain an understanding of different aspects of geographical perspectives, an awareness of the interdependence of world regions and resources and how places are connected through the lens of history and geography. This course concentrates on humanity's more significant political, economic, cultural, and intellectual achievements. Content includes but is not limited to the ancient Near East, India, China, the Middle Ages, and the modern world. The students will gain the ability to

read varied sources and develop the skills to analyze, interpret and communicate. Themes which will guide instruction and student learning will be: Cause and Effect, Continuity and Change, Global Awareness, Unity and Diversity, and Human and Environmental Interaction.

International Baccalaureate (IB) Humanities, Middle Years Program courses aim to develop the understanding and application of concepts (time, place and space, change, systems and global awareness) and skills (technical, analytical, problem solving, and investigative). Content may include topics such as geography, history, economics, politics, civics, sociology, anthropology, and psychology.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course.

US HISTORY I/II – 3010

Grades: 11 Credit: 1.0

United States History is a two-semester course in which the history and civilization of America are examined from a broad perspective. The course focuses on analysis of important concepts, events, and people in the American experience. Course activities and instruction are designed to develop further the academic skills which will help the student better comprehend this and other areas of study. The student is asked to use the historical method and to examine carefully the social, political and economic forces which shaped America. (This is a required course for graduation.)

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

IB HISTORY OF THE AMERICAS I - 3260

Grades: 11 Credit: 1

IB History courses prepare students to take the International Baccalaureate History exams at either the Standard or Higher level. In these courses, students study political, military, economic, social, and cultural trends and explore the nature of historical documentation and the methods used by historians. IB History courses survey 20th-century topics in an international context; provide a detailed regional study of a major area (Africa, Europe, the Americas, West and South Asia,

Counseling Notes:

- NCAA approved core course
- CDHE approved core course.

IB HISTORY OF THE AMERICAS II – 3265

Grades: 12 Credit: 1

IB History courses prepare students to take the International Baccalaureate History exams at either the Standard or Higher level. In these courses, students study political, military, economic, social, and cultural trends and explore the nature of historical documentation and the methods used by historians. IB History courses survey 20th-century topics in an international context; provide a detailed regional study of a major area (Africa, Europe,

the Americas, West and South Asia, East and Southeast Asia, or Australia); and enable students to undertake individual study on a subject of interest in greater detail and depth.

Counseling Notes:

- Prerequisite - Successful completion of IB History of the Americas I.
- May test HL after successful completion.
- This course can be taken as an elective or Social Science credit for the non-IB diploma student.
- NCAA approved core course
- CDHE approved core course.

PSYCHOLOGY - 3110

Grades: 11, 12 Credit: .50

Psychology courses introduce students to the study of individual human behavior. Course content typically includes (but is not limited to) an overview of the field of psychology, topics in human growth and development, personality and behavior, and abnormal psychology.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

IB PSYCHOLOGY I - 3125

Grades: 11, 12 Credit: 1

IB Psychology courses prepare students to take the International Baccalaureate Psychology exams at either the Standard or Higher level. Course content includes developmental and social psychology, cognition and learning, and personality subject areas, which are approached from biological/physiological, behavioral, and humanistic points of view. These courses may include a study of research design and statistics and involve practical work in psychological research.

Counseling Notes:

- May test IB SL after successful completion.
- Non-IB diploma students may take this class for elective credit or Social Studies credit
- NCAA approved core course
- CDHE approved core course.

IB PSYCHOLOGY II - 3126

Grades: 12 Credit: 1

IB Psychology courses prepare students to take the International Baccalaureate Psychology exams at either the Standard or Higher level. Course content includes developmental and social psychology, cognition and learning, and personality subject areas, which are approached from biological/physiological, behavioral, and humanistic points of view. These courses may include a study of research design and statistics and involve practical work in psychological research

East and Southeast Asia, or Australia); and enable students to undertake individual study on a subject of interest in greater detail and depth.

Counseling Notes:

- Prerequisite - Successful completion of IB Psychology I.
- May test IB SL or HL after successful completion.
- Non-IB diploma students may take this class for elective credit or Social Studies credit.
- NCAA approved core course.
- CDHE approved core course

LAW FOR EVERYONE - 3080

Grades: 11, 12 Credit: .50

Law Studies courses examine the history and philosophy of law as part of U.S. society and include the study of the major substantive areas of both criminal and civil law, such as constitutional rights, torts, contracts, property, criminal law, family law, and equity. Although these courses emphasize the study of law, they may also cover the workings of the legal system.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

SOCIOLOGY - 3120

Grades: 11, 12 Credit: .50

Sociology courses introduce students to the study of human behavior in society. These courses provide an overview of sociology, generally including (but not limited to) topics such as social institutions and norms, socialization and social change, and the relationships among individuals and groups in society.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

STUDENT SUPPORT SERVICES

VOYAGER ENGLISH I – 0136

Grades: 9 Credit: 1

This course will strengthen students' English skills, specifically reading and writing. Designed for students reading up to the 3rd or 4th grade level, students will use a literature based approach. Students will work on word attack skills, comprehension, vocabulary building, reading speed and fluency, spelling, and written language mechanics.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

VOYAGER ENGLISH II– 0137

Grades: 10 Credit: 1

This course will strengthen students' English skills, specifically reading and writing. Designed for students reading up to the 3rd or 4th grade level, students will use a literature based approach. Students will work on word attack skills, comprehension, vocabulary building, reading speed and fluency, spelling, and written language mechanics.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

VOYAGER ENGLISH III - 0138

Grades: 11 Credit: 1

This course will strengthen students' English skills, specifically reading and writing. Designed for students reading up to the 3rd or 4th grade level, students will use a literature based approach. Students will work on word attack skills, comprehension, vocabulary building, reading speed and fluency, spelling, and written language mechanics.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

VOYAGER ENGLISH IV – 0139

Grades: 12 Credit: 1

This course will strengthen students' English skills, specifically reading and writing. Designed for students reading up to the 3rd or 4th grade level, students will use a literature based approach. Students will work on word attack skills, comprehension, vocabulary building, reading speed and fluency, spelling, and written language mechanics.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

READING - 0140

Grades: 9, 10 Credit: 1

Reading class is for struggling readers to increase fluency and comprehension through a series of research based instructional reading strategies and practices. This class is for elective credit.

VOYAGER MATH I– 0236

Grades: 9, 10, 11, 12 Credit: 1

These classes provide individualized, small group instruction in basic Mathematics. These courses are designed to increase student performance in basic mathematical operations.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

FOUNDATION MATH I - 2905

Grades: 9, 10, 11, 12 Credit: 1

These classes provide individualized, small group instruction in basic Mathematics. These courses are designed to increase student performance in basic mathematical operations.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

FOUNDATION MATH II– 2906

Grades: 9, 10, 11, 12 Credit: 1

These classes provide individualized, small group instruction in basic Mathematics. These courses are designed to increase student performance in basic mathematical operations.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

STUDY SKILLS – 9024

Grades: 11, 12 Credit: .25

Study Skills courses prepare students for success in high school and/or for postsecondary education. Course topics may vary according to the students involved, but typically include reading improvement skills, such as scanning, note-taking, and outlining; library and research skills; listening and note-taking; vocabulary skills; and test-taking skills. The courses may also include exercises designed to generate organized, logical thinking and writing.

Counseling Notes:

- Students must have an active IEP and be placed in this course. .

INTERPERSONAL DEVELOPMENT SKILLS – 0755

Grades: 9, 10, 11, 12 Credit: .50

This course is designed for special education students who need a small, structured setting in which to develop interpersonal and self-awareness skills. Students will learn and practice skills necessary to be successful in their other daily classes.

Counseling Notes:

- Students must have an active IEP and be placed in this course.
- This course may be repeated for credit.

LANGUAGE ARTS I, II, III, IV – 0172

Grades: 9, 10, 11, 12 Credit: 1

This course involves working with students with IEP on their skills in Reading, Vocabulary, Comprehension, and Writing using the 6 Traits.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

MATH I, II, III, IV – 0272

Grades: 9, 10, 11, 12 Credit: 1

This course involves working with students with IEP's on their basic Math skills: Calculation, Money, Time, and Problem solving.

Counseling Notes:

- Students must have an active IEP and be placed in this course.

- Students must have an active IEP and be placed in this course.

WORLD LANGUAGES

All language classes can count towards elective or fine art/practical art credit.

PRE-IB/MYP FRENCH I - 8250

Grades: 9, 10, 11, 12 Credit: 1

International Baccalaureate (IB) Language B (French), Middle Years Program courses enable students to gain competence in modern French and encourage respect for and understanding of other languages and cultures.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP FRENCH II - 8251

Grades: 9, 10, 11, 12 Credit: 1

International Baccalaureate (IB) Language B (French), Middle Years Program courses enable students to gain competence in modern French and encourage respect for and understanding of other languages and cultures.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

FRENCH III - 8220

Grades: 10, 11, 12 Credit: 1

French III courses focus on having students express increasingly complex concepts both verbally and in writing while showing some spontaneity. Comprehension goals for students may include attaining more facility and faster understanding when listening to the language spoken at normal rates, being able to paraphrase or summarize written passages, and conversing easily within limited situations.

Counseling Notes:

- Prerequisites: Successful completion of French II
- NCAA approved core course.
- CDHE approved core course.

IB FRENCH III - 8256

Grades: 10, 11, 12 Credit: 1

IB Language B—French courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's second language). Students preparing to take the Standard level exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

FRENCH IV - 8230

Grades: 11, 12 Credit: 1

French IV courses focus on advancing students' skills and abilities to read, write, speak, and understand the French language so that they can maintain simple conversations with sufficient vocabulary and an acceptable accent, have sufficient comprehension to understand speech spoken at a normal pace, read uncomplicated but authentic prose, and write narratives that indicate a good understanding of grammar and a strong vocabulary.

Counseling Notes:

- Prerequisites: Successful completion of French III
- NCAA approved core course.
- CDHE approved core course.

IB FRENCH IV - 8257

Grades: 11, 12 Credit: 1

IB Language B—French courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's second language). Students preparing to take the Standard level

exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed.

Counseling Notes:

- Juniors may test in IB SL with teacher recommendation.
- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course.
- CDHE approved core course.

IB FRENCH V - 8258

Grades: 11, 12 Credit: 1

IB Language B—French courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's second language). Students preparing to take the Standard level exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed.

Counseling Notes:

- Juniors may test in IB SL with teacher recommendation.
- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course.
- CDHE approved core course.

PRE-IB/MYP GERMAN II - 8341

Grades: 9, 10, 11,12 Credit: 1

International Baccalaureate (IB) Language B (German), Middle Years Program courses enable students to gain competence in modern German and encourage respect for and understanding of other languages and cultures.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

GERMAN III - 8320

Grades: 10, 11, 12 Credit: 1

German III courses focus on having students express increasingly complex concepts both verbally and in writing while showing some spontaneity. Comprehension goals for students may include attaining more facility and faster understanding when listening to the language spoken at normal rates, being able to paraphrase or summarize written passages, and conversing easily within limited situations.

Counseling Notes:

- Prerequisites: Successful completion of German II
- NCAA approved core course.
- CDHE approved core course.

IB GERMAN III - 8342

Grades: 10, 11, 12 Credit: 1

IB Language B— German courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's second language). Students preparing to take the Standard level exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course.

GERMAN IV - 8330

Grades: 11, 12 Credit: 1

German IV courses focus on advancing students' skills and abilities to read, write, speak, and understand the German language so that they can maintain simple conversations with sufficient vocabulary and an acceptable accent, have sufficient comprehension to understand speech spoken at a normal pace, read uncomplicated but authentic prose, and write narratives that indicate a good understanding of grammar and a strong vocabulary.

Counseling Notes:

- Prerequisites: Successful completion of German III
- NCAA approved core course.
- CDHE approved core course.

IB GERMAN IV - 8343

Grades: 11, 12 Credit: 1

IB Language B— German courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's second language). Students preparing to take the Standard level exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed.

Counseling Notes:

- Juniors may test in IB SL with teacher recommendation.
- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course
- CDHE approved core course.

IB GERMAN V - 8344

Grades: 12 Credit: 1

IB Language B— German courses prepare students to take the International Baccalaureate Language B exams at either the Standard or Higher level. These courses focus on improving students' accuracy and fluency in oral and written communication (usually in the student's "second" language). Students preparing to take the Standard level exam will be able to understand native speakers; students preparing for the Higher level exam will be able to communicate fluently at native speed.

Counseling Notes:

- Juniors may test in IB SL with teacher recommendation.
- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course.
- CDHE approved core course

PRE-IB/MYP SPANISH I - 8150

Grades: 9, 10, 11, 12 Credit: 1

International Baccalaureate (IB) Language B (Spanish), Middle Years Program courses enable students to gain competence in modern Spanish; these courses also encourage respect for and understanding of other languages and cultures.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course.

PRE-IB/MYP SPANISH II - 8160

Grades: 9, 10, 11, 12 Credit: 1

International Baccalaureate (IB) Language B (Spanish), Middle Years Program courses enable students to gain competence in modern Spanish; these courses also encourage respect for and understanding of other languages and cultures.

Counseling Notes:

- NCAA approved core course
- CDHE approved core course.

- Juniors may test in IB SL with teacher recommendation.
- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course

- CDHE approved core course.

IB SPANISH LANGUAGE A SPANISH I - 1194

Grades: 11,12 Credit: 1

IB Language A Spanish courses prepare students to take the International Baccalaureate Language A exams at the Standard Level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors, written analyses of this literature and other oral and written assignments. Course content is designed to improve students' accuracy and fluency in the language, which is usually the students' native tongue.

Counseling Notes:

- NCAA approved core course.
- CDHE approved core course

IB SPANISH LANGUAGE A SPANISH II - 1195

Grades: 11, 12 Credit: 1

IB Language A Spanish courses prepare students to take the International Baccalaureate Language A exams at the Standard Level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors, written analyses of this literature and other oral and written assignments. Course content is designed to improve students' accuracy and fluency in the language, which is usually the students' native tongue.

Counseling Notes:

- Juniors and Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course.
- CDHE approved core course

IB SPANISH LANGUAGE A SPANISH III - 1196

Grades: 11, 12 Credit: 1

IB Language A Spanish courses prepare students to take the International Baccalaureate Language A exams at the Standard Level. Course content includes in-depth study of literature chosen from the appropriate IB list of texts and authors, written analyses of this literature and other oral and written assignments. Course content is designed to improve students' accuracy and fluency in the language, which is usually the students' native tongue.

Counseling Notes:

- Seniors may test in IB SL or HL with teacher recommendation.
- NCAA approved core course
- CDHE approved core course.

SPANISH FOR NATIVE SPEAKERS LEVEL I/II – 8180/8181

ESPAÑOL PARA HISPANOHABLANTES NIVEL I/II

Grades: 9, 10, 11, 12 Credit: 1

Spanish for Native Speakers courses support, reinforce, and expand students' knowledge of their own tongue. Because students understand at least the rudiments and structure of the language and have a working vocabulary (to a greater or lesser degree), Spanish for Native Speakers courses often move faster than do regular Spanish

foreign language courses and emphasize literary development (with a study of literature and composition). These courses may also include the culture or history of the people and introduce translation skills.

Counseling Notes:

- Prerequisite: Students must complete a pre-assessment with a Spanish teacher to determine the correct level of placement. This year-long course cannot be repeated. Successful completion of this course is a prerequisite for Spanish for Native Speakers Level II.
- NCAA approved core course.
- CDHE approved core course.

SPECIAL OFFERINGS

NEWSPAPER JOURNALISM (*The Trojan Voice*) - 1540

Grades: 9, 10, 11, 12 Credit: 1

Publication Production courses provide students with the knowledge and skills necessary to produce the school newspaper, yearbook, literary magazine, or other printed publication. Students may gain experience in several components (writing, editing, layout, production, and so on) or may focus on a single aspect while producing the publication.

Counseling Notes:

- Students must complete an application, interview, and receive approval from the instructor. Applications are available in the English office and the counseling office.
- This course can be taken for elective credit and may be repeated for credit.
- This course is NOT accepted by the NCAA Clearinghouse for English credit.
- CDHE academic elective course

THEATER ARTS I/II – 6354/6355

Grades: 9, 10, 11, 12 Credit: .50

Introduction to the Theater courses provide an overview of the art, conventions, and history of the theater. Although the courses sometimes include experiential exercises, they emphasize learning about the theater rather than performance. Students learn about one or more of the following topics: basic techniques in acting, major developments in dramatic literature, major playwrights, the formation of theater as a cultural tradition, and critical appreciation of the art.

Counseling Notes:

- Prerequisite: Theater Arts I must be completed successfully prior to enrolling in Theater Arts II.
- This course may be taken for Fine and Practical Arts credit.
- CDHE academic elective course

YEARBOOK JOURNALISM (*The Retrospect*) - 1545

Grades: 10, 11, 12 Credit: 1

Publication Production courses provide students with the knowledge and skills necessary to produce the school newspaper, yearbook, literary magazine, or other printed publication. Students may gain experience in several

components (writing, editing, layout, production, and so on) or may focus on a single aspect while producing the publication.

Counseling Notes:

- Students must complete an application, interview, and receive approval from the instructor. Applications are available in the English office and the counseling office.
- This course can be taken for elective credit and may be repeated for credit.
- This course is NOT accepted by the NCAA Clearinghouse for English credit.
- CDHE academic elective course

THEORY OF KNOWLEDGE - 9105

Grades: 12 Credit: 1

Obligatory for every International Baccalaureate degree candidate, IB Theory of Knowledge courses aim to stimulate critical self-reflection of students' knowledge and experiences. Course content generates questions regarding the bases of knowledge and their verification in the disciplines of mathematics, natural sciences, human sciences, and history, with an awareness of moral, political, and aesthetic judgments and biases. Students learn to appreciate the strengths and limitations of various kinds of knowledge; to relate studied subjects to one another, general knowledge, and living experiences; to formulate rational arguments; and to evaluate the role of language in knowledge and as a way to convey knowledge.

Counseling Notes:

- Required for all IB diploma candidates.

STUDENT ASSISTANT - 9040

Grades: 9, 10, 11, 12 Credit: .25

G.P.A. excluded

Office Aide courses provide students with the opportunity to work in campus offices, developing skills related to clerical office work. Duties may include typing, filing, record-keeping, receiving visitors, answering the telephone, and duplicating, among others. These courses emphasize appropriate work attitudes, human relations, and proper office procedures.

Counseling Notes:

- Do not sign up for this course at registration. Applications are available the first 5 days of school in the Counseling.
- Students must report to that teacher daily and complete all work expected of them.
- Students may earn a maximum of .25 credit per semester.
- Elective credit only.

STUDENT GOVERNMENT - 9025

Grades: 9, 10, 11, 12 Credit: 1

G.P.A. excluded

School Governance courses convene students as an entire student body to discuss common concerns, organize groups for action, make decisions, and solve school-related problems.

Counseling Notes:

- Prerequisite: Election to student office or permission from instructor (via written application).
- Student Government involves work outside of the normal class day.
- This class is for elective credit only and may be repeated for credit.
